In every culture, everywhere on earth, one thing has always been at the heart of every society: the worship of demonic entities.

Ancient Egypt, Babylon, Rome, and Greece were deeply embedded in spiritual practices which usually involved two things: sexual abuse and human sacrifice. This applies to every part of the world, be it Africa, Asia, the Americas, Europe - it is literally worldwide. Christianity and Islam refer to the dark spiritual entity known as Satan (which means opponent or adversary). But there are also other beings. One prominent spiritual entity that has been worshipped throughout the history of humanity is called Moloch. In different cultures around the world, he is known by various names, such as Melech, Mo-lech, Milcom, Melkom, Molek, Malec, Malik, Melek, Malkum, Melqart, Melkart, Milk, Melqarth, Kronos and Cronus. In Islam, for example, Mo-lech is called Malec or Malik.

The many names confirm the worldwide worship of this demonic entity.

Moloch is depicted as a human with the head of a bull. In ceremonies, statues of this demon were heated with fire, and once the outstretched hands were glowing hot, living babies were placed in them. To suppress the terrified cries of the child being burned alive, loud music was played.

This is basic human history that every one of us needs to be aware of. When you travel anywhere in the world, the architectural remains of human sacrifice can often be seen at various locations. In South America, the Aztec pyramids, for example, mark the landscape. At the top of these pyramids, humans were sacrificed to dark spiritual forces. In Europe, this was done by the Druids; in Africa by the shamans; in Egypt by the high priests, and so on. Human sacrifice has been at the heart of most cultures around the world.

In every quality resource about this topic, you will find abundant documentation that, at the supreme level of the power structures, ritual sexual abuse and human sacrifice are still practiced.

One example of this was revealed by Ronald Bernard, a former banker who worked at a high level of the worldwide financial imperium.

Bernard moved astronomical amounts of money for the concealed rulers and gained a clear understanding of what happens in these circles. In the video below, he testifies that at the higher levels of the financial elites, most people are members of a religion called Luciferianism. Ronald participated in some of their satanic masses, which involve a lot of alcohol and sex. At some point, he was invited to attend high level meetings in Germany, where children would be sacrificed. He was promised that this would swing wide open the gates to unlimited power and great wealth for him personally. Instead of moving billions for the financial rulers, he would become a billionaire himself. All he had to do was put his conscience in the freezer - at minus 100.

The motivation behind the cruel practice of human sacrifice is that in return for the offering up of humans (especially babies and children) to demonic forces, the elites receive power and wealth from the dark realm.

Ronald Bernard refused to partake of this horror and left the world of the ruling financial elites behind. He was then tortured to death, but had an NDE (near death experience) and miraculously came back to life in the hospital. After serving the dark side, Ronald felt that he had been given a

second chance in life, to restore the damage he had caused to humanity. He has now dedicated his life to the creation of an alternative financial system that can help people escape the tyrannical systems of the elites.

**We hide our head in the sand
because reality is too scary.**

I want to encourage you to be *conscious* about this, and not give in to the reflex of rejecting information that is disturbing. This is what sustains these horrors. The reason I share these sensitive details is because this kind of evil can only exist with the ignorance of humanity. Bringing this into the light is the first step to putting an end to this terror.

I will offer something else here that confirms the cannibalistic nature of the elites. In Hollywood, there have recently been exclusive parties organized by Marina Abramovic. Some photographs from these parties leaked out, and you can see them in the report below.

Satanic Nature of The Elites

Marina Abramovic organizes parties called "Spirit Cooking" during which celebrities eat human bodies made out of cake. Real naked women are displayed on tables, with a skeleton on top of them.

During these public parties they of course don't eat real humans, but testimonies from surviving eye-witnesses all agree that what happens during the secret gatherings, is even worse than actual cannibalism. These public parties are intended to introduce the concept to low level members of their circles.

Below are a few photos of Marina Abramovic, one of the most popular artists among the financial elites. She uses a lot of symbols from satanism, or Luciferianism.

As child abuse and sacrifice are common practices in the high levels of the elites, it is telling that Abramovic creates this kind of "art".

In the following photos Abramovic is pictured with Queen Beatrix from The Netherlands, and Jacob Rothchild, one of the heads of the City of London. They pose in front of a painting called "Satan summons his demons from hell".

Next you see photos taken during a party of the Rothschilds. On December 12, 1972, Marie-Hélène de Rothschild organized a Surrealist Ball at Château de Ferrières, one of their castles. Notice how dolls of broken babies are used to decorate the dinner tables, as well as corpses of naked women.

What you see in these images is just the superficial low-level stuff shown to the public. We cannot even imagine what they are doing in secret. The eye-witness testimonies also only briefly lift the veil of this dark realm. Once you know how evil these entities are, it becomes clear why they have no problem imposing inhumane tyranny upon humanity. It is absolutely critical that we have the courage to share this information with the world.
